DEAR COLLEAGUES

On behalf of the Executive Committee of the European Society of Gynecologic Oncology (ESGO) and the Italian Society of Gynecologic Oncology (SIOG), it is my pleasure and pride to invite you to the 3rd Advances in Gynecologic Oncology, that will be held in Milan on 22nd – 23rd June 2017.

Our meeting can be considered one of the major event in developing, upgrading and teaching the Gynecologic Oncology. The third edition of Advances in Gynecologic Oncology covers the most challenging areas of basic science and clinical applications in gynecologic oncology. The aim of the meeting is to collect experts in the field of gynecologic oncology. The meeting covers diagnosis, biology and therapy of gynecological cancers, thus highlighting issues and controversies in their management.

The Scientific program, developed by the Executive Board, will receive contributions from Scientific Societies, mostly members of the European Society of Gynecologic Oncology (ESGO) the Italian Society of Gynecologic Oncology (SIOG) and the Multicenter Italian Trials in Ovarian cancer (MITO) group, that cooperates with us. The XXVIII National Conference of the Italian Society of Gynecologic Oncology (SIOG) will take place during the course.

Hope to see you in Milan
