

# Scientific Committee

**Nicoletta Colombo**

Director, Program Gynecologic Oncology, IEO, Milan

**Angelo Maggioni**

Director, Division of Gynaecology, IEO, Milan

**Giovanni Aletti**

Innovative Therapeutic Strategies in Ovarian Cancer Unit, IEO, Milan

**Vanna Zanagnolo**

Director, Mini-invasive and Robotic Gynecologic Cancer Surgery Unit, IEO, Milan

**Fedro Peccatori**

Director, Procreation and Fertility Unit, IEO, Milan

## Faculty

**Roberto Angioli**

University Campus BioMedico,  
Rome (Italy)

**Pierluigi Benedetti Panici**

La Sapienza University,  
Rome (Italy)

**Roberto Biffi**

IEO, Milan (Italy)

**Cristina Bosetti**

Mario Negri Institute, Milan (Italy)

**Nicoletta Cerana**

ACTO Onlus, Milan (Italy)

**Saverio Cinieri**

Hospital Antonio Perrino, Brindisi (Italy)

**Gennaro Cormio**

Aldo Moro University, Bari (Milan)

**Pernilla Dahm-Kähler**

Institute of Clinical Sciences,  
Göteborg (Sweden)

**De Censi Andrea**

E.O. Ospedali Galliera, Genoa (Italy)

**Andreas du Bois**

KEM | Kliniken Essen-Mitte,  
Essen (Germany)

**Anna Fagotti**

Cattolica University, Rome (Italy)

**Anna Maria Ferrero**

Mauriziano Hospital, Turin (Italy)

**Robert Fruscio**

San Gerardo Hospital, Monza (Italy)

**Antonio González Martín**

Clinica Universidad de Navarra,  
Madrid (Spain)

**Fabio Landoni**

San Gerardo Hospital, Monza (Italy)

**Jonathan A. Ledermann**

Cancer Research UK and UCL Cancer  
Trials Centre, London (UK)

**Franco Odicino**

ASST Spedali Civili of Brescia (Italy)

**Sandro Pignata**

IRCCS National Cancer Institute  
"Fondazione G. Pascale", Naples (Italy)

**Carmine Pinto**

AUSL-IRCCS of Reggio Emilia (Italy)

**Karl C. Podratz**

Mayo Clinic, Rochester (USA)

**Francesco Raspagliesi**

Istituto Nazionale dei Tumori,  
Milan (Italy)

**Maria Giovanna Salerno**

San Camillo-Forlanini Hospital,  
Rome (Italy)

**Enrico Sartori**

ASST Spedali Civili of Brescia (Italy)

**Giovanni Scambia**

Gemelli University Hospital,  
Rome (Italy)

**Paolo Scollo**

Cannizzaro Hospital, Catania (Italy)

**Paolo Zola**

University of Turin (Milan)

### Meeting venue

**IEO OVARIAN CANCER CENTER-OCC**  
**10 YEARS OF ACTIVITY**  
Delving into known and unknown aspects  
of advanced ovarian cancer

Scientific Director:  
Nicoletta Colombo

14 December 2018

Conference target:  
Gynecologists, Gynecologic Oncologists, Oncologists

## Introduction

Ovarian cancer (OC) remains the leading cause of death for gynecologic malignancies in developed countries. Across different studies, the absolute benefit from care at high-volume centers exceeds the benefit from break-through treatments. Numerous studies suggest that the management of OC pts by gynaecologic oncologists in cancer centers results in improved clinical and economic outcomes.

Based on these premises, in 2008 we opened the Ovarian Cancer Center at the European Institute of Oncology (IEO-OCC) mirroring a similar initiative founded by Robert Bristow at the Johns Hopkins University in Baltimore. The mission of IEO-OCC was to provide a unique example in Italy of clinical care for patients with ovarian cancer. The main principles were a strong collaboration between experts to assure a multidisciplinary approach for research, prevention and treatment of ovarian cancer. The principal objectives were to improve early diagnosis, survival and quality of life of patients with ovarian cancer and simultaneously to increase the opportunities for additional clinical research projects. We also wanted to enhance awareness of ovarian cancer regarding the importance of prevention and the benefits of centralized expert care for advanced cases.

The multidisciplinary approach represents the distinctive element of the IEO-OCC to guarantee the continuity of care in the complex therapeutics journey of ovarian cancer patients.

To commemorate the 10 year anniversary of IEO-OCC we decided to hold a meeting on December 14, 2018, not only to review the main improvements achieved by the scientific community during the past 10 years, but particularly to identify new perspectives and challenges for the future.

The program will include key-note lectures from national and international experts in the field, followed by round tables with invited participants which will allow large time for discussion.

The afternoon will be dedicated to the important issue of centralization of care, with invited international speakers who will tell us about the successful experiences in their countries on this crucial aspect. A “photography” of Italian ovarian cancer patients and where they received their treatment will be instrumental to the following discussion which will see the participation of political authorities, national societies presidents and advocacy group representatives.

The final objective will be to formulate concrete propositions to improve the access to quality care for the majority of patients with ovarian cancer.

## Scientific Programme

9.45 Introduction - N. Colombo

10 Newly diagnosed advanced ovarian cancer: facts, no hype  
Moderator: G. Aletti

Keynote Lecture:

How many times shall we “shift our mind” in advanced ovarian cancer surgery?  
A. du Bois

10.20 Panel and Floor Discussion

Discussants: P. Benedetti Panici, R. Biffi, A. Fagotti, F. Landoni, F. Raspagliesi

The following topics will be discussed:

- Surgical resectability
- Lymphadenectomy
- ERAS implementation
- HIPEC
- Interval debulking surgery: when

11 The journey of upfront therapy in ovarian cancer

Moderator: N. Colombo

Keynote Lecture:

Finding the mark to integrate targeted therapies in front line  
S. Pignata

11.20 Panel and Floor Discussion

Discussants: G. Cormio, A. De Censi, R. Fruscio, A. González Martín, F. Peccatori

The following topics will be discussed:

- Can we differentiate treatment based on molecular profiling?: BRCA and beyond
- Is Bevacizumab mandatory?
- Patient selection: residual tumor, comorbidity etc
- Too many new clinical trials: how to choose?
- How to include biomarker research?

12 A new language for ovarian cancer: will platinum sensitivity remain a relevant prognostic factor?

Moderator: A. González Martín

Keynote lecture:

Contemporary challenges in the treatment of relapsing ovarian cancer: A pill and nothing more, how far are we?  
J.A. Ledermann

12.20 Panel and Floor Discussion

Discussants: R. Angioli, A. du Bois, A.M. Ferrero, F. Odicino

The following topics will be discussed:

- The concept of platinum sensitivity: still valid?
- Platinum or non platinum: how to decide?
- Maintenance treatment: which, when and how long
- Chemo-free treatment: a valid option?
- Coming soon new treatment in ovarian cancer

13 Lunch

Moderators: A Maggioni, V. Zanagnolo

Keynote Lectures:

- 14 Centralization of care in USA - K.C. Podratz  
14.20 Centralization of care in Sweden - P. Dahm Kähler  
14.40 Where do we treat OC in Italy? - C. Bosetti  
15 Centralization of Care in Piedmont region - P. Zola  
15.20 Role of advocacy groups - N. Cerana (ACTO)

15.40 Panel and Floor discussion:

SIGO (President and Past President): G.Scambia, P. Scollo  
SIOG (President and Past President): E. Sartori, G. Salerno  
AIOM (Treasurer and Past President): S. Cinieri, C. Pinto  
ACTO: N. Cerana  
Political Authorities: TBC

16.30 IEO-OCC after 10 years - G. Aletti

17 Toast

## Online Registration

The attendance to the Conference is free of charge and it is limited to 200 participants.

You can register online by connecting to <https://www.ieo.it/it/FORMAZIONE/IEO-Education/Corsi-e-congressi/>, selecting the event of interest and clicking on “online registration”.

### CERTIFICATE OF ATTENDANCE AND CME CREDITS

The course will apply to Agenas for providing Italian CME credits for Gynecologists and Oncologists.

The Certificate of attendance will be delivered at the end of the course at the registration desk.
